NOTES

- No captured payment is recorded for this booking, so no receipt number has been issued. This document is a statement of the amount charged, not evidence of payment.
- Platform fees are not itemised. No platform commission is recorded for this booking, and a zero-valued line would assert a fact that was never captured.
- The venue's configured tax rate at the time of issue was 18%. It is shown for reference only: the tax amount above is the amount actually charged and is not re-derived from this rate.
- This document is generated from an immutable snapshot taken when the receipt was first issued, so it does not change if the booking, venue or pricing is edited later.
